Quorum Not Present

**• New Membership/New Subscribers:**

Village of Leaf River  
Oregon Park District  
Oregon Fire Protection District

**• Project Status:**

1) 2009 Aerials

We have received all of the aerials and are in the process of checking them for any possible quality issues. Jim “volunteered” Karen Churney to assist us. Another pair of eyes will speed up the process. So far, there have been very few areas in question.

- 2) LiDAR (2' Contour Data)  
We expect to begin generating 2' contours for the county soon - when the LiDAR data arrives. We will need to purchase another seat of the ArcGIS 3D Analyst for this.
- 3) Beacon Website  
Total Requests are up 6.5% to 750,000 year-to-date; 500,000 of which are by non-subscribers.
- 4) GPS Projects.  
Utility updates for Forreston, Mount Morris, and Polo are ongoing.  
  
Planning recreation paths with Ogle County Park Districts is proceeding well.
- 5) Remote GIS Access  
The ArcGIS Server and remote FTP access will be available mid-December.
- 6) New Projects  
Integration of GIS maps with Highway sign maintenance is in process. The development of a database to use in the field for accurate and up-to-date installation and inspection should be available for testing mid-February.
